**Subject:** RE: Option Selection for Oil and Natural Gas NSPS Technical Reconsideration (Tier 2, SAN 5719.8)  
**Attachments:** ONG NSPS TechReconsid OS 5719.8.docx

Options selection for the technical portion of the OOOOa rulemaking has been scheduled for Thurs, Feb 1. I don't know when I am going to get the briefing materials from the Workgroup leads, but the attachment says they should be provided at least two days before the meeting, so I'm guessing I will get them at about the same time as they are provided to Wehrum's office.

Although this meeting is not the critical one about the policy portion of the rule (whether to regulate methane and/or shrink the scope of the oil and gas sector to get out of doing so), I think it is important that Cathy attends or delegates someone to be present at this meeting to show that R5 is interested and invested in these particular rulemakings.

What kind of briefing, if any, do you think is appropriate to give her? It's possible that the briefing materials will speak for themselves but let me know if you think we should provide a verbal walk-through as well.
